

Quality Policy

ASCO Engineering and Surface Technology has roots in precision machining, and along with our industry leading highly skilled management team of Thermal Spray Coatings Experts we also provide a wealth of knowledge and experience in Surface Coating and Finishing Technologies.

Our sites have been specifically designed to provide a 'one stop shop' approach ensuring all aspects of repair and manufacture can be completed in-house, guaranteeing total quality control and traceability at all stages of production.

Utilising the latest Oerlikon Metco and Praxair Thermal Spraying equipment contained within dedicated acoustic booths and using robotic manipulation we offer HVOF, High Energy Plasma Spray, high energy arc and combustion coating process and general-purpose Gas Thermal Spray solutions.

This is all supported with our purpose-built metallurgical laboratory unit. Our precision diamond, grit grinding machines and German diamond super finishing services complement our coating service.

In addition, we have a specialist tool room and welding operation to ensure accurate tooling for coating requirements for client supplied components.

The Organisation operates a Quality Management System that has gained BS EN ISO 9001:2015 certification, including aspects specific to –

- **General machine engineering and thermal coating**

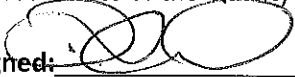

The management is committed to:

1. Develop and improve the Quality Management System
2. Continually improve the effectiveness of the Quality Management System
3. The enhancement of customer satisfaction.

The management has a continuing commitment to:

1. Ensure that customer needs and expectations are determined and fulfilled with the aim of achieving customer satisfaction
2. Communicate throughout the Organisation the importance of meeting customer needs and all relevant statutory and regulatory requirements
3. Establish the Quality Policy and to set Quality Objectives at relevant functions, levels and processes
4. Ensure that the Management Reviews set and review the Quality Objectives, and report on the internal audit results as a means of monitoring and measuring the processes and the effectiveness of the Quality Management System
5. Ensure the availability of resources.

The structure of the Quality Management System is defined in this Quality Manual. All personnel understand the requirements of this Quality Policy and abide with the contents of the Quality Manual. The Organisation complies with all relevant statutory and regulatory requirements. The Organisation constantly monitors its quality performance and implements improvements when appropriate. This Quality Policy is regularly reviewed in order to ensure its continuing suitability. Copies of the Quality Policy are made available to all members of staff and to relevant interested parties. Copies of the minutes of Management Reviews, or extracts thereof, are provided to individual members of staff in accordance with their role and responsibilities as a means of communicating the effectiveness of the Quality Management System.
